Biodegradation Test Results- SITRA

Additional data for the report of Saf l bio w sample (Inward No: M1900001-1)
submitted for AATCC 30 (2013) - Antifungal Activity, Assessment on Textile Materials:
Mildew and Rot Resistance of Textile Materials – Part 1: Soil burial test

Incubation period (Days)	Images
15	
30	
45	No evidence of test sample in soil

Additional data for the report of Base Fabric sample (Inward No: M1800185-1)
submitted for AATCC 30 (2013) - Antifungal Activity, Assessment on Textile Materials:
Mildew and Rot Resistance of Textile Materials – Part 1: Soil burial test

Incubation period (Days)	Images
15	
30	
45	
60	
75	No evidence of test sample in soil

Thank you for helping us reduce single-use plastics in the everyday consumer system and providing an alternative solution in the form of biodegradables for a more eco-friendly future.
